

A low-angle photograph of a modern glass skyscraper, partially obscured by large, overlapping teal and blue geometric shapes that create a sense of motion and depth. The building's glass facade reflects the sky and surrounding environment.

COMPANY PROFILE

PT. JETSPEED MANDIRI INDONESIA

Laundry Machines Principle

Strength

Energy Saving Philosophy

Manufacturer of Jetspeed has a researching and developing team with rich professional technology, among which are our technicians of over 10 years professional designing experience.

Through learning from advanced international technology, we never stop the pace of innovation and have succeeded in designing the machines production with our own characteristics. This type of machine enjoys the superiority of advanced designs, low energy consumption, shorter washing period and will lead an industrial innovative trend.

Superior Quality

Leading technology and complete production system are two footstones of us. As quality enjoys the best priority in Jetspeed, we have set our goal as building the first rate quality, establishing scientific quality concept and have formulated strict quality management regulations. With superior quality, our product boasts its longer service life than other products in such field.

Professional Service

With a number of professional talents of many years experience in developing, manufacturing, sales and service of laundry machines, we provide superior and timely after sales service. In order to meet different needs of our customers, we provide professional integrated solutions to ensure the most benefits of customers with the least input and to develop together with them.

Competitive Price

Holding the tenet of sustainable development and win-win result with our cooperators, we always set our goal as to be the first in performance. Our products rank high in quality and service life, for which we are chosen by countless customers. However, our price is customer friendly, which ends in our superior cost performance. That best answers why we enjoy great popularity in our customers.
